

Flexible conduit

**Closure plug Ø 12,5 mm, natural**

· Suitable for 16 mm electroflex.

Article no:	AT2770
EAN:	8712259003153
Colour	White
Amount Packaging	1000 st.
diameter	12,5 mm
Material	Plastic
Material quality	Polypropylene (PP)
Suitable for rigid tubes	No
Suitable for flexible tubes	Yes
Suitable for pliable tubes	Yes
Air tight	Yes
Pushthrough membrane	No
Dispatch	1000

Attema has a wide range of flexible conduits for various applications.

Such as ZeroH-flex: halogen-free electroflex, where high(er) demands are made on fire-safe installations. Flame-retardant. KEMA approved according to NEN-EN-IEC 61386-1 and -22. Electroflex for standard electrical applications.

Attaflex, a halogen-free PE-conduit, resistant to higher temperatures and therefore especially suitable for use in concrete. Mantaflex: conduits suitable as thermal insulation material, for central heating or water pipes for instance. Can also be used as a protective hose for electrical connections of machines. And halogen-free Nylonflex, especially suitable for cables in situations where no toxic and corrosive gases may be released in the event of a fire.
