- Paintable with use of primer.

Article no:	AT29125
EAN:	8712259604466
Halogen free	Yes
Amount Packaging	35 st.
Degree of protection (IP)	IP40
Material	Plastic
Width	115 mm
Length	140 mm
Colour	Grey
RAL-number	7042
Impact strength	IK07
Depth	40 mm
Dispatch	35

The wall cable duct is used on Multi Dwelling Units. It can be used to cover up new-to-install fiberglass cables, but also to cover up existing smaller sized cable ducts which have been used over the years for example to cover up COAX-cables. Because of the higher demand in broadband these units are in need for fiberglass, which can be installed by using the existing smaller sized cable ducts. The wall cable duct will provide a neat visual finish by covering up both the fiberglass cables as well as the cable ducts installed in the past.
