

## DATASHEET

### Risercable Adapter Ø11,5mm

Article number: AT29490

#### Product description

The Risercable Adapter Ø11,5mm is an adapter which allows Ø11,5mm risercables to be inserted in Attema's 24v & 48v 3-8mm Hybrid FiberManagement Plate or box. The front plate fits Ø3-8mm customer cables or ducts, while risercables usually have a larger diameter. With this adapter, the bundles / micromodules of a 11,5mm risercable will be able to enter the 3-8mm frontplate of Attema's Hybrid FMP. This way, 11,5mm riser cables can be combined with 3-8mm customer cables or ducts.

#### Features and Benefits

- Flexibility frontplate hybrid FMP or FMB (suitable for riser cables, drop cables & ducts)
- One Fibermanagement system in FttX network
- Easy to install
- Durable
- IP68
- Sealing as advised by the System Integrator / cable manufacturer
